6.00pm**

Topic:

"A collaborative dictionary of the Erakor language"

Of the 130 languages of Vanuatu, most have few records (texts, recordings, dictionaries, etc). Speakers typically want a dictionary and maybe a collection of stories in their language. They also want to find early translations, for example made by missionaries. Nick will talk about how to find records in Vanuatu languages before discussing the collaboration with Erakor speakers that led to the publication of the dictionary of that language in 2021.
